# Summer of Math Exposition

Discover and create new math content

The Summer of Math Exposition (SoME) is an annual competition to foster the creation of excellent math content online. You can find the SoME3 winners below. The full list of non-video entries is available [here](#). The playlist of all video entries is available [here](#).

### The Mathematics Of String Art

String Art recreates an image using string. An algorithm is used to calculate the order in which the string needs to be wrapped around the nails. This video is about the mathematics behind this algorithm.

### Rethinking the real line

We take a geometric approach to rational numbers, to rethink how to organize the real line. Along the way, we visualize Diophantine approximation and continued fractions. And your favourite number,  $\pi$ .

### How Computers Use Numbers

An exploration of how modern computers interpret bits as numbers, building some common number formats from the ground up.

### Pixel Art Anti Aliasing

A full walkthrough of the motivation, background, derivations, and implementation of an efficient anti-aliasing filter for rendering pixel art.
